Objective

Passionate AI and Machine Learning student seeking a challenging role in a reputed organization where I can apply my technical and interpersonal skills to contribute to organizational growth while advancing my professional development.

Education

DVR & Dr. HS MIC College of Technology

Kanchikacherla, India

Bachelor of Technology in Artificial Intelligence and Machine Learning

2022 – 2026

CGPA: 8.70/10.0

SR Junior College

Vijayawada, India

Intermediate (MPC) - Board of Intermediate Education, Andhra Pradesh

2020 – 2022

Percentage: 79.7%

Ravindra Bharathi Public School

Vijayawada, India

Secondary School Certificate - Board of Secondary Education, Andhra Pradesh

2020

Percentage: 83.4%

Technical Skills

Programming Languages: Python, SQL, C (Basic), Java (Basic)

Web Technologies: HTML, CSS, JavaScript (Basic), React (Basic)

Libraries / Frameworks: Pandas, NumPy, Matplotlib, Flask, Streamlit, OpenCV, scikit-learn, Seaborn

AI/ML: Regression, Classification, Clustering, Natural Language Processing, Deep Learning (Basic)

Cloud / Deployment: Render, Firebase, Gemini API

Projects

Smart Barcode Based Attendance System for Educational Institutions (SBAS)

GitHub

- Actively contributed to designing and implementing key modules of a Flutter–Firebase attendance system, including barcode scanning workflows and role-based access for faculty and students.
- Supported the development of attendance data processing and reporting features, assisting in real-time data handling, filtering logic, and export functionality for academic records.

PlantDocBot: AI Plant Disease Diagnosis via Chat and Image Upload

GitHub

- Developed a multimodal AI-based plant disease diagnosis system using image classification and optional text-based symptom validation.
- Implemented a web-based application integrating a React frontend with a Flask backend to provide dataset-backed disease predictions and chatbot-driven guidance.

Sahayak.AI : AI CO-TEACHER PLATFORM

Website

- Architected and led the development of Sahayak.AI, a full-stack AI co-teacher app from concept to deployment, integrating backend AI workflows with Firebase Genkit and Google Gemini (vision, text, image, TTS).
- Delivered 7 core features: hyperlocal content generator, vision-based worksheet creator, conversational assistant, visual aid generator, async “ask later” queue, automated lesson planner, and gamified learning modules.

REAL-TIME OBJECT DETECTION IN IMAGE USING YOLOv8 AND OpenCV

GitHub

- Implemented real-time object detection system using YOLOv8 and OpenCV.
- The system identifies objects in video streams, draws bounding boxes around them, and labels them with confidence scores

E-Commerce Data Analysis

GitHub

- Analyzed datasets using Python, Pandas, and NumPy for business insights. Performed data cleaning, merging, and visualization to generate actionable recommendations for inventory management.
- Created dashboards using Seaborn and Matplotlib for sales trends and performance analysis across multiple countries.

Internships

Infosys Springboard Internship 6.0

Nov 2025 - Jan 2026

- Gained hands-on knowledge of full-stack application development by working on frontend-backend integration and machine learning model deployment.
- Worked on building an AI-based plant disease diagnosis system using image classification, API integration, and dataset-driven chatbot guidance.

Google AI-ML Virtual Internship

Apr 2025 - Jun 2025

- Learned the fundamentals of Artificial Intelligence and Machine Learning through a project-based curriculum. Applied ML workflows such as data preprocessing, model training, evaluation, and optimization.
- Built and tested simple models using Google tools, and developed a clear understanding of real-world AI applications.

Achievements & Activities

- 3rd Place (Judges' Choice Award) - CodeSpark India 2025, 2-Day National Level Coding and Innovation Hackathon, KBN College (2025)
- Participant in TechTrek - 24-Hour AI Hackathon at Research Conclave 2025, Siddhartha Academy of Higher Education(2025)

Certifications

- Python Programming Basics - HackerRank
- Data Analytics job simulation - Deloitte
- Introduction to Modern AI- CISCO
- Data Analyst 101 course - Simplilearn
- Introduction to generative AI - Google Cloud
